THE EXPERIENCE

# ABOUT THE EXPERIENCE

The rush of water. The surge of adrenaline. The flow of energy. The screams of joy. You can't describe it. You have to feel, experience it.

*Polin has been doing what she is doing with that same feeling of anticipation and energy for nearly 40 years. Committed to safety and passionate about design, we've grown from a family company into a global leader, with 2500 waterpark projects in 93 countries worldwide. We're proud to offer the industry's widest range of waterpark and water play attractions.*

*In time, passion became profession.*

*Our pioneering technologies and ground-breaking designs mean that we are the trusted suppliers to some of the world's biggest, award-winning waterparks. We understand that each and every element within the waterpark matters and our thrilling waterslides help break attendance records for our clients all over the world.*

*What we don't like the most is paper talk.*

*It's this attention to detail and desire for perfection that guarantees the quality and variety of our rides and ensures that every waterpark we work with delivers a unique experience.*

*Game changing innovations such as our landmark King Cobra or L-RTM technology in waterslide manufacturing have set new industry benchmarks for creativity and excitement.*

*Where there is fun there is joy, there is absolute perfection.*

*Now our logo has evolved to reflect our evolving business and vision. Inspired by the products we're so passionate about; it represents a bird's eye view of a spiralling water slide created from our company's initials. Our logo might have been changed but our passion remains the same: The passion to innovate and exhilarate.*

*You are invited to experience,  
The Polin Experience.*

*Polin Waterparks,  
The Experience.*

Aqualand Bassin d'Arcachon-France

GLOBAL MARKET LEADER IN  
DESIGN, MANUFACTURING AND  
INSTALLATION OF WATERSLIDES

Humangaslide Cartoon Network Amazone  
Pattaya-Thailand

- Founded in Istanbul, Turkey in 1976.
- Current headquarters in Dilovasi, Turkey.
- Production plants all in Turkey.
- Total plant area 35,000 sqm.
- Team of 400 people dedicated to waterpark industry.
- Offices in Russia, Morocco, Macedonia, Montenegro.
- Global Market Leader in Design, Manufacturing, Installation of Waterslides.
- 2500 Waterpark Projects in 93 Countries Worldwide.
- Globally Signature Waterpark Supplier of the Leading Waterpark Chains.
- Signature Waterslide Designer.
- Installed Biggest and Award Winning Waterparks / Waterslides.
- Offers Industry's Widest Range of Water Play Attractions.
- Pioneer in RTM Waterslide Manufacturing and The Sole Producer Offering The All Line in RTM.
- Technology Leader in Waterslide Manufacturing.
- Meets Industry's Highest Standards.
- Strong R&D Focus.

Aquasplash Marineland Antibes-France

# WHY POLIN?

*Our Company has many characteristics that make it an attractive asset:*

## Experience & Expertise

With 38 years of experience across the globe in the composites sector, we've developed an unmatched business and technological expertise. With 2500 projects in the last 38 years, our wealth of experience continues to grow.

## Know - How

Our extensive business experience in the aquatics industry distinguishes us from our competitors.

## Worldwide References

We have successfully completed more than 2500 projects of different sizes and complexity in 93 countries around the world.

## Strong R&D Focus

We are committed to research and development. We never stop improving our products and services or introducing new products to the industry.

## Excellent Staff

We have experienced, talented, innovative staff of professionals dedicated to aquatic industry. The quality of our people makes us stand out.

## Strong Partner Network

We have built strong and long-term relationships with our outstanding partners in 50 countries around the globe.

## High Capacity Plants

With state-of-the-art production facilities, we are proud to say that we have a high plant capacity.

## Commitment to Quality

We established Polin with the best quality and service in mind. It has always been our goal to produce the finest quality products in the industry.

## Competitive Price

We are proud to serve superior quality products and service at a competitive pricing.

## Dedicated Customer Service

Polin is a client-centric organisation.

## Strong Supplier Network

We only work with the leading suppliers around the globe and we have a strong reputation among our suppliers. We have succeeded in building strong working relationships with them.

## Easy Communication

We understand that effective communication is crucial for success of any project. With 38 years of experience in 93 countries around the world, we've gained an important advantage of working in any culture. All our employees engaged in communication with customers speak fluent English.

## Geographical Location & Culture

Turkey has an important logistics advantage due to its geographic location where continents Europe, Asia and Africa meet. Our production centers are located between these three large markets. Looking at the world map, Turkey is at a place where west and east meets, where you can still feel the trace of hundreds of cultures who had lived in this region, where you can fully experience the taste of four seasons.

Living in such a beautiful, multi-cultural environment creates a synergy that takes our team one step ahead in developing the most successful projects. Due to huge cultural and historical heritage, we have an important flexibility while working with different cultures.

Aqua Toy City, Izmir-Turkey

# VISION

*Our vision is to be the leading company in the worldwide waterparks sector. This means being deemed number one by its partners, customers, colleagues, and employees due to our proved distinction, expertise, credibility, innovation and quality.*

# MISSION

*Our mission is to contribute to the national and sector development by leading improvements in the global sector, supplying the highest quality and most innovative products and services at convenient prices, progressing beyond the expectations of our partners and customers, and continuously increasing our production and export volumes.*

# VALUES

*Innovation // Corporate Commitment // Honesty // Quality // Reliability // Leadership // Success Focus // Dynamism // Integrity // Value for Partners, Customers, and Employees // Customer Focus // Teamwork*

Club Calimera Serra Palace, Antalya-Turkey

PolinWaterparks

# MILESTONES

## **1976** FOUNDATION

Polin is established by architect Enver Pakiř as a composites design and manufacturing company.

## **1980** TOURISM AND LEISURE INDUSTRY

Polin designed and manufactured unique and innovative products, composites structures and supports for Tourism and Leisure Industry.

## **1989** WATERSLIDE MANUFACTURING

Polin started waterslide manufacturing.

## **1999-2000** BIGGEST REGIONAL WATERSLIDE SUPPLIER

Polin excelled in waterpark design and supply. TUV quality certification for the slides. WWA & EWA memberships. Grown into the biggest regional waterpark company. Designed larger scale waterparks.

## **2000-2005** LARGER PROJECTS, SUPERIOR QUALITY WORLDWIDE

Opened 2nd facility and moved HQ. IAAPA membership. ISO 9001 certification. Built the largest waterparks Internationally: Europe's largest outdoor and indoor waterparks. Largest waterparks of Greece, Turkey, Syria, Egypt, Russia, Vietnam, Iran, Ukraine (Indoor/Outdoor).

## **2005-2014** PIONEER IN RTM WATERSLIDES TECHNOLOGY LEADER

Pioneer in the advancement and the application of L-RTM process in waterslide manufacturing. Offers its patented NLE, SPE in RTM and translucent RTM waterslides offers the whole line of production in L-RTM. Award Winning Waterparks/WaterSlides. Moved to the new facility.

## SIGNATURE WATERSLIDE DESIGNER

## **AND FUTURE Excellence in Technology, Innovation and Service**

## PLANTS AND OUR TEAM

*We are acutely aware of the responsibility we bear towards our customers, which is why we continue to invest in the highest quality of equipment and state-of-the-art facilities.*

We believe our facilities demonstrate our ability to efficiently expand our production lines and execute our growth strategy. We have an experienced, talented, and innovative staff of professionals dedicated to the aquatic industry. The quality of our people is the key to our consistent success. The superiority of our staff makes us stand out. Each team member possesses specialized industry knowledge. The unique combination of our team adds value by introducing diverse approaches and perspectives to ensure maximum customer satisfaction.

## SOCIAL RESPONSIBILITY

*As Polin, we are aware of our responsibility to contribute to the wellness of the world and society's welfare. That is why we are trying to adapt our to the evolving needs of society. We conduct responsible business practices, and uphold the highest ethical standards in everything we do.*

In this context, we are always compatible with laws, ethical standards, and human rights. With this social awareness, we set goals about education, environment, health and other issues of social responsibility, and carry out campaigns to achieve them. Grants and payments, protecting the environment, workplace responsibility, and local community programs are just some of these campaigns.

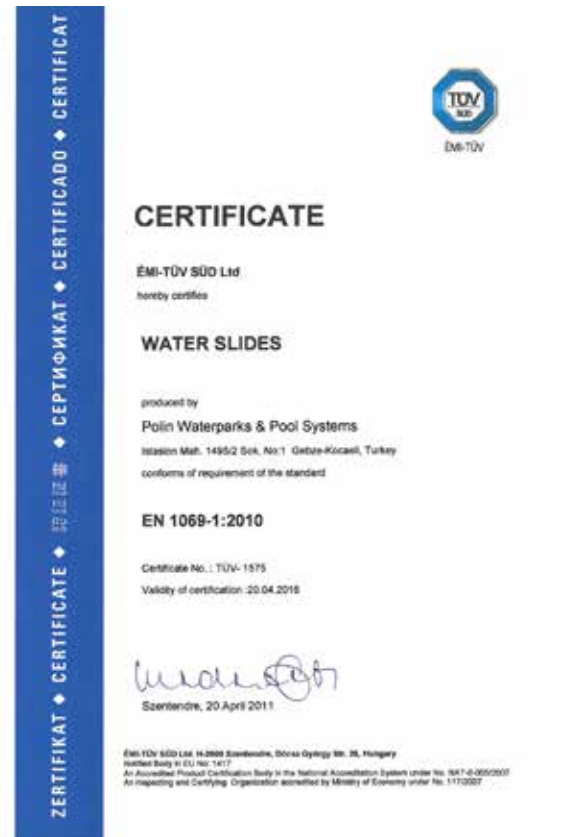

Save the world

# CERTIFICATES & MEMBERSHIPS

We take full responsibility that all design, manufacturing, assembly and service of waterparks and waterslides that we supply to meet the requirements of the International Quality System Standard ISO 9001 and work in accordance with the European Norms EN 1069-1 & EN 1176, ASTM, CSEI.

TRANSPARENT WATERSLIDES  
NATURAL SOUND EFFECTS  
DESIGN & ENGINEERING  
MANUFACTURING & QUALITY MANAGEMENT

# RTM WATERSLIDE TECHNOLOGY

*Pioneer in the advancement and the application of L-RTM Process in Waterslide Manufacturing*

- Introduced L-RTM technology in waterslide manufacturing in 2006
- First European waterslide manufacturer that uses L-RTM in manufacturing
- Single waterslide manufacturer in the world to produce largest waterslide components by L-RTM.
- Single waterslide manufacturer in the world that offers all of its line as Magic Shine
- Only waterslide manufacturer in the world that can offer bowl rides and family rides as RTM manufactured
- Offers its patented NLE, SPE in RTM and translucent RTM waterslides.

*Finest Quality waterslides both aesthetically and physically in less time & with less waste*

Pirates of the Cactus, Bodrum-Turkey

## Advantages

- Perfectly shiny & smooth finish on both sides
- Aesthetically superior products
- Stronger but lighter waterslides
- Homogeneous thickness distribution
- Perfectly smooth joints
- Environmental friendly
- Low emissions
- Easy maintenance
- Available in translucent colors
- Available in Natural Light Effects
- Available in Special Pattern Effects
- Available in Natural Sound Effects

Orbita Aquapark, Koblevo-Ukraine

# LEADING THE WAY IN RTM WATERSLIDE TECHNOLOGY

Santorini Water Fantasy, Cha-am-Thailand

PolinWaterparks

# NATURAL LIGHT EFFECTS

- The natural light effects - coming from the sun - that are created inside the tunnel type water-slides by a special technique
- Integrated into Magic Shine<sup>®</sup>
- Safest, costless, most fun and most colorful light effect solution in tunnel slides!
- Patented Technology

## TOUCH THE SUNSHINE

Aquafantasy, Izmir-Turkey

PolinWaterparks

# SPECIAL PATTERN EFFECTS

- A more attractive look compared to a standard one color options
- Several color options compatible with the park's theme and landscape
- Offering a theme in itself, reduces the theming costs in general
- Promises the same delivery period with the standard colors
- Continuous application throughout the slide
- Available in Magic Shine which doubles the visual feast both offering special patterns and a superior shiny look on the outer surface of the slide

**Not we are also offering patterned translucency. Contact us for SPE application in translucent slides!**

# DESIGN & ENGINEERING

Polin aims to provide the highest quality, customer oriented, cost efficient, high capacity, and safe solutions. At Polin, we consider every project carefully. This includes taking into account the objectives of park managers, developers, investors, and guests. We know how important it is to increase the length of stay and to ensure repeat visits in your park. Project budget and development goals are crucial in our design analysis and planning. The location, topography, climate, culture, capacity, environment, location visibility of each site is unique. We do not assume what works in one specific country will work elsewhere.

Polin has an experienced, talented, and innovative staff of professional architects and engineers dedicated to the aquatic industry. Our multi-disciplinary approach makes it possible to offer flexible solutions. Our design team designs the most sophisticated types of rides, works carefully with the unique characteristics of each project, maximizes the site potential, and finds the best optimum solution - all while ensuring the success of every project.

The design and engineering services of Polin include site plan project development, ride design, structural support systems, tower and foundation plan development, and mechanical and hydraulic design.

It does not matter if it is only one slide or a major waterpark project, our project management approach ensures the project is completed on time. We continue to work with our client during all project phases to make each and every factor that contributes to the success of the park like product, cost, timing, etc. work to our client's advantage.

We have a wealth of experience that we've built through our 2500 projects all over the world during the last 38 years. This rich and diversified experience contributes to our clients' success regardless of their location.

Considering all of these factors, we are confident to say that we guarantee your success.

***Serving your A to Z needs from a single Professional Integrated Source***

# MANUFACTURING & QUALITY MANAGEMENT

We have established Polin with the best quality and the best service in mind. It has always been our target to produce the finest quality waterslides in the industry. In our high capacity plant, Polin manufactures all of its fiberglass products according to the highest industry standards.

From concept to completion, we enforce strict quality control standards. At Polin, we use only the highest quality raw materials for all of our products, and our manufacturing plants utilize the most advanced manufacturing equipment and procedures.

This allows us to ensure you are receiving the finest quality product every time.

Everything is controlled at each phase with the Quality Management System, ISO 9001 (TUV). The tests conducted by our Quality Department start with raw material acceptance and continue strictly at every step of the production process.

Just before the product is ready for shipment, we conduct another detailed examination to ensure that the product is technically, physically, and aesthetically perfect.

Before our products leave the factory, we make sure that each component is carefully prepared and protected for shipping.

***Dedicated to perfection***

# INSTALLATION & AFTER SALES SERVICES

Upon arrival at the final destination, complete installation is performed under supervision of Polin's experienced installers, who have previously installed similar parks in 93 countries.

For over 38 years, we've done installations all over the world. Our engineering, on-time delivery, and detailed working drawings make everything easy on your side.

We give you a full action plan ensuring an efficient installation. Our skilled installers, with our project management approach, ensure an efficient installation process

by bringing years of worldwide industry experience to each project - regardless of the location.

Polin has experts ready to serve your needs all around the world. Our after sales service helps ensure the maximization of the lifetime of your waterpark.

Our after sales services include service and maintenance packets for preventative actions, waterslide repair, material supply, replacement of parts, and slide resurfacing.

***Building pleasure since 1976***

***Flow like life!***

# WATERPARKS

A high-angle, wide shot of a water park. In the foreground, a large white slide curves down towards a pool. To the right, a red and yellow looping slide is visible. In the middle ground, there's a pool with a blue and yellow striped slide leading into it. The park is surrounded by palm trees and other tropical vegetation. In the background, a large, green, forested mountain rises under a clear sky. Several white buildings and structures are scattered throughout the park area.

# THE WATERPARKS

*Looking at the world map, Turkey is at a place where East meets West, where one can still feel the trace of hundreds of cultures who had lived in this region, where one can fully experience the taste of four seasons.*

Living in such a beautiful, multi-cultural environment creates a synergy that takes our team one step ahead in developing the most successful projects. A successful waterpark development requires the success of every single unit in the park.

Polin inspired waterparks break attendance records all over the world because we understand your challenges. Polin relies on the quality and the diversity of its water rides to offer the best possible service for each waterpark, wherever in the world.

We provide attractions and features that will make your park or facility unique.

We know how important it is to have the best water rides in your park and to keep your attractions new, exciting, and the best – so that customers keep coming back.

# HOTEL & RESORT PACKAGES

# HOTEL & RESORT PACKAGES

Increasing occupancy and average room rates is one of the main goals of the hotel and resort managers.

We can provide any hotel and/or resort, new or existing, with customized packages using our variety of configurations to meet space and budget requirements.

Hotels and resorts are able to increase their occupancy and average daily rates with the addition of waterslides and kids' animation projects.

We offer affordable additions to enhance revenues not only for hotels and resorts, but also for

existing municipal and recreational swimming pools.

You can turn to Polin to get quick, efficient, cost effective design ideas to enhance your pool facility with a wide variety of waterslides and/or water play features.

Club Calimera Serra Palace, Antalya-Turkey

Crystal Waterworld, Antalya-Turkey

Rixos Premium, Antalya-Turkey

Pirates of the Cactus Bodrum-Turkey

# Cruise Ships

Looking at the projects that Polin has been doing, we can conclude that the cruise waterpark trend is still rising. On one hand, the old cruises while renovating are considering waterparks as a part of their renewal strategy and second, second major trend, which we already are seeing, is the addition of signature rides and themed waterparks to both existing cruises and new ones being built. The projects that Polin has done in cruise ships so far include streamlined design, expertise in engineering, theming, technology.

# Waterparks in Amusement Parks

*If you give guests slides and other water rides that offer real thrills and excitement - adrenaline-pumping experiences that they can't get anywhere else - then it's definitely possible to keep them coming back again and again. And that allows even a short season to be extremely profitable. Plus, waterslides and water play structure are appealing to families who might not otherwise be interested in the 'typical' theme park experience. After all, a waterpark allows guests to spend much more time together than most theme parks. They can ride many of the slides as a group. They can splash together in the wave pool or float along in the leisure river. And they can let little ones entertain themselves with the interactive gadgets and gizmos of the kids' water playground.*

# Aquatic Centers

*With more than 2500 waterpark projects located around the globe, with most of that growth has been at larger destination waterparks, Polin also has had success in smaller, regional facilities, and aquatic centers. Polin's additions help make the aquatic centers more enticing to families and encourage guests to spend more relaxing time at the facility, taking advantage of other services on property such as retail and dining. The investment in a waterslide and water play feature is a small price considering the overall costs of building the hotel, to potentially add upwards of 10 - 20% in increased revenues.*

# SIGNATURE WATERSLIDE DESIGN

# SIGNATURE WATERSLIDE DESIGN

*Rides that are designed and engineered for maximum safety with highest level of ride experience. State-of-the-art soft ware and innovative staff dedicated to the waterslide industry. High-speed, energetic, high-capacity, sophisticated slides that offer screams, adrenaline and fun.*

Polin offers the industry's widest range of products, including signature rides such as the patented King Cobra, Magic Sphere, Spheres, Magicone and Space Shuttle & hybrid combination waterslides such as Hybrid Dragero, Sphere Combo, Space Shuttle Combo. We design and engineer rides that deliver fun, safety, function, comfort, innovation, capacity, entertainment, ease of operation and maintenance.

Our products are custom designed and custom engineered.

Our water slides are unique. They differ both in terms of their distinctive design and ride path.

Also, our slides contain multiple slide routes in one including vertical drops, classical ride paths, uphill ride routes and centrifugal ride routes.

In order to provide a frictionless surface on these giant slides, water spray jets are commonly used.

Most of the slides in our portfolio begin with a steep entry that provides rides with the thrill of "free falling". Polin has always been innovative and is continuing that tradition with these very sophisticated rides.

Game changing in  
waterparks world.

# THEMING

PolinWaterparks

# THEMING

As Polin, we are pleased to lead the way in theming the waterslides. We believe we will start witnessing theming as storytelling. The rides that tell better stories will be the best. Our newest signature rides present unparalleled design, intense rider experiences, and creative theming. A great example of a themed waterslide is our King Cobra. This is a game changing waterslide. It is the first to offer a theme built into its fiberglass design, which-by the way-doesn't have to be based on a cobra. Right now, for example, we are creating a dragon-themed version for a project in China, we completed a ship theme in Indonesia for Bugis Waterpark, and a Humangaosur theme for the Cartoon Network Amazone Waterpark project.
